Class: Peterson Hall 103  
Time: Tues., Thurs. 11-12:20

PURPOSE

This class will devote the major part of the lectures and readings to the study of Argentina since 1810, and particularly after 1880. While primarily concerned with the course of the nation's political development and the social and economic consequences of government policies, lectures will address the development of ideas and major social and cultural changes. The course moves through three periods.

ELECTRONIC AND OTHER EMBARRASSMENTS

No cell phones, beepers, or other devices should be going off during this class. If you are tired or need to read a newspaper or receive a phone call, do not come to class.

I welcome students during office hours but please do not visit me when you have a cold or the flu.

PAPERS

All writing assignments are built around the completion of a single paper, 10-12 pages in length, due at the time of the final exam. The paper will be written in three stages.  
Stage One will be due on Thursday of Week III (15 per cent).  
Stage Two will be due on Thursday of Week VII (25 per cent).  
Stage Three will be due at the time of the final exam (40 per cent).

DISCUSSION

REQUIREMENT: This requirement will count 20 per cent of the grade. I will hand out 15 cards at the beginning of the course; you may hand them back for class participation (one card per class), through discussion of the readings on the “discussion” area of the web site, or a class presentation (up to 10 cards).
DISCUSSION WEB SITE: I will count up to 10 cards in this format, discussion topics listed on TED. You may only post your comments on a discussion page not the e-mail or “chat” pages. Use the website e-mail for issues you want to raise but do not want the class to see. All comments on the discussion site must be accompanied by your full name. Check each week for the discussion topic and your contribution, which should be a paragraph in length, will be due on that week. No late contributions will count toward the grade.

PRESENTATIONS: I am usually generous in grading presentations; they will count between 6-10 cards. First come, first served. The presentation must be about Argentina but the topic you pick can relate to any period, subject (including personal experiences there), and area. You must schedule your presentation at least a week ahead of time and have the subject approved by me. I will then schedule you a date; no change of dates. No more than one presentation will be allowed during a class period. Each presentation should be 10 minutes in length if done individually and no more than 15 minutes if done by two people. Do not expect to give a presentation by approaching me in the last two weeks. I will try to keep the final class free of any presentations.

THE FINAL PAPER

All papers are to be submitted in printed form, double-spaced and using 12 point font. Each is to be an essay with an argument: Stage One should be three pages of text; Stage Two should be six pages; and the final paper should be 10-12 pages. You should use author-page citation on each submission (Rock, p. 123) and add a bibliography at the end. All submissions will be graded on the basic elements of writing as well as the use of evidence from the readings and lectures. **You may repeat or reuse sections of any earlier stage in writing a later one.**

Stage One – due on Thursday, at the beginning of class, of Week III. 
What was the key element in the quarrel between Unitarios and Federalists? Was it more than a political difference?

Stage Two – due on Thursday, at the beginning of class, of Week VII. 
Peronismo, as a cultural phenomenon as well as a political one, represents more continuities than discontinuities in Argentine politics. Would you agree or disagree with this statement? Explain.

Stage Three or The Final Paper. Answer one of the following questions.

1. The struggle between Peronists and anti-Peronists is based on an inability of Argentina’s people to foster a political system that corresponds to its economic reality, Agree or disagree and in doing so discuss the following items as well as any other issue you wish to raise.
   a. Persistent Patterns of Class Conflict
   b. Profound Cultural Differences based on Religion or other beliefs, ----

2. Argentina’s history acquired a different “axis” of meaning after “El Proceso.” Agree or Disagree. In answering this question deal with:
   a. The sense of itself as a European nation
   b. The moral and economic degradation that followed the Dirty War
